

One-Year MSM Course

5 reasons to study in the Czech Republic

Free education

Studying at public universities in the Czech language is completely free, regardless of your age and citizenship. To take advantage of this amazing opportunity, you need to master the Czech language, pass nostrification and pass the entrance exams.

High-quality education

Many people call Prague the intellectual capital of Europe. The high level of education, professionalism of teachers and the demand for graduates are the best proof of that statement. In total, there are 26 state universities in the Czech Republic that offer education in the various areas.

Successful employment

Perspective job opportunities after graduation. The leading international corporations, which are located in Prague are very interested in applicants. The unemployment rate does not even reach 3%.

Central location

The Czech Republic is located in the center of Europe at the intersection of all trade and tourism routes, which gives you the opportunity to travel to all countries of the European Union.

Comfort and safety

The Czech Republic is in the TOP 10 safest countries with a high standard of living and the lowest costs of living in Europe.

One-Year MSM Course

Why study with the MSM Academy?

Experienced teachers and coordinators

All teachers of the program are native speakers with many years of experience. Throughout the course, each student is assisted by a responsible coordinator, supporting them in matters of accommodation, health, transport, visa extension and admission to a university.

Language certificate

After completing the preparatory program from the MSM Academy and passing the final exams, you will receive a certificate of the Czech language proficiency.

Accommodation in comfortable dormitories

This is a great way to immerse yourself in the atmosphere of student life in Europe and adapt quickly.

Special preparation

The program is designed based on conditions of admission to the Czech universities. In the classroom, you are going to learn all the necessary information for admission, and also will go over the samples of tasks for the entrance exams in detail.
