

One-Year MSM Course

preparation for admission to the art schools of the Czech Republic

5 reasons to study in the Czech Republic

Practical knowledge

Czech educational programs at art universities are mainly aimed at providing students with practical knowledge in creative fields.

Experienced professors

Czech universities are proud of their strong teaching staff. Many of the professors are ongoing art professionals.

Creative potential

The program of art universities is designed to fully reveal your creative potential. The main goal of the university is to develop your creativity.

International experience

During your studies, you will be able to participate in exchange programs where you will gain international experience in creative directions.

Affordable education

Czech universities provide a high European standard of education at an affordable price. All foreigners can receive education in the Czech language at state universities free of charge.
